

# GEOCACHING

## BASICS:

Geocaching is the ultimate treasure hunt. A geocacher can locate a cache using a GPS. Anyone with a GPS device can try to locate a geocache.

If you don't have a GPS there's no need to fret! Google Maps or the Map App can be used as a GPS. Just Enter your coordinates and Discover MODL!

MODL caches always contains a logbook. Write your Name, the Date you found it, and a little message within each log book when you find the cache.

Larger caches also may contain any number of items. Remember, if you take something, leave something of equal or greater value in return.
